

Contents of issue 2 vol. LV

- 101 A. S. FORYŚ, A. FORYŚ, *Three-parameter optimization of an axially loaded beam on a foundation*
- 115 A. AMBROZIAK, *Modelling of continuum damage for application in elasto-viscoplastic bodner-partom constitutive equations*
- 129 A. MACIĄG, *Wave polynomials in elasticity problems*
- 155 T. R. ORI, M. N. ICHCHOU, P. GBAHA, L. JEZEQUEL, *Improvement of handling by means of active suspension control*
- 181 W. SZCZEPIŃSKI, *A comparative analysis of theoretical models of gravity movements of cohesionless granular media*
