

Contents of issue 3 vol. L

- 107 PIOTR PERZYNA, *Thermodynamical theory of inelastic single crystals*
- 165 V.E. ROSCA, V.F. POTERAȘU, N. ȚĂRANU and B.G. ROSCA, *Finite-element model for laminated beam-plates composite using layerwise displacement theory*
- 177 AIMIN YU, *Study on normal stresses in composite curved beams subjected to unsymmetrical bending*
- 187 J.W. WEKEZER, I. KREJA, M. ISSA, *Retrofit analysis of Florida Beam-and-Post reinforced concrete bridge barriers*
